## Coinage of the World

GOLD, SILVER, COPPER AND BRONZE

COINS, PAPER MONEY, MEDALS,  
TOKENS AND PROCLAMATION PIECES

TO BE SOLD THRU

*mail bid auction*

CLOSING DATE 10 PM (CDT)  
AUGUST 31, 1971

*Postponed closing date  
Sept. 8, 1971*

## TERMS OF SALE

- 1 - This is strictly a mail bid auction sale. Bidders are competing only with other mail bids and not floor bidders. All lots will be sold to the highest bidder as of 10 PM (CDT), Tuesday, 31 August, 1971. All bids must be in our possession by that hour.
- 2 - Estimates are provided for each lot. These estimates simply represent the owner's idea of the value of the item or our professional opinion as to what the coin is worth. **THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER AT YOUR DISCRETION.** To further clarify this, please read "An Important Note to Bidders" in the introductory pages. We recommend that if you want the lot, you should bid close to or over the estimate listed.
- 3 - If your bid is the highest on any given lot, you are the buyer. If you are very desirous of obtaining any particular lot or lots, bid generously as bids above the estimate will be reduced at the discretion of the auctioneer to levels slightly higher than the second highest bid.
- 4 - Lots will only be sent on open account to customers who have established credit with us. Bidders not establishing credit will be invoiced for their successful bids, and coins will be sent upon receipt of payment. New accounts requesting shipment to a post office box or to general delivery must also furnish their home or business address. New accounts must include satisfactory credit references or a twenty percent deposit.
- 5 - Bids should be made only in United States funds. Foreign bidders should advise if special shipping instructions are necessary. Postage and insurance (or registration) fees will be added to all bidders' invoices.
- 6 - Bids should be mailed as early as possible. Telephone bids will be accepted from clients known to us. Such bids will be accepted during the hours of 9-12 AM and 2-5 PM (CDT) August 23 to August 30. Last minute bids can be made on the closing day, August 31, from 8 AM to 10 PM (CDT). Final hour bidders will be restricted to eight minutes per call to give everyone an equal opportunity to place their bids. Therefore, it is advisable to phone in your bids as early as possible to insure yourself the opportunity of placing the bids you desire.
- 7 - Auction sales ARE NOT approval sales. By submitting bids you agree to the terms set forth herewithin. All coins have been catalogued and described by experts. Errors made by the cataloguer will be gladly corrected, but we cannot be responsible for your errors. Returns can be made only with the written approval of the cataloguer; such permission must be requested within ten days after the coins have been dispatched from our offices.
- 8 - All bids must be honored in cash funds immediately upon receipt of the coins or the invoice. This is necessary in order to reimburse consigners. Special arrangements for payment are possible if the amount warrants such treatment. In such cases mention this in your bid sheet.
- 9 - All bids are to be by lot as numbered in this catalogue. In case of tie bids, preference is given to the bid received first.
- 10 - Bank Americard and Mastercharge may be used provided the purchaser agrees to pay the service charge billed to us by our bank on such transactions (3% on Bank Americard and 4% on Mastercharge).
- 11 - 5% sales tax will be added to all San Antonio purchases and a 4% sales tax to all Texas purchases. Dealers may deduct the tax if they include their exemption number on their bid sheet.
- 12 - Lots will be available for inspection, by appointment only, the week of August 23 to August 28th.
- 13 - The title to all coins will remain with the cataloguer until payment in full is made. All items are guaranteed to be authentic unless otherwise indicated and to be as listed. Furthermore the cataloguer reserves the right to accept or reject any or all bids.

## AN IMPORTANT NOTE TO BIDDERS

Our experience with the two Medina Auctions indicated to us that while most numismatists are familiar with the auction system, a considerable number are not. Therefore, we offer the following hints to the inexperienced bidder.

A large number of rare and scarce coins are included in this auction. Each lot has an estimate of its value listed. These figures indicate the approximate value of the lot. As a bidder you have the option to bid any figure you desire on any lot. Some lots will sell for twice to three times their estimate, while others will bring only fifty percent of the value indicated. The coins will be sold to the highest bidder unless the only bids received on the particular lot are judged ridiculous. If you are particularly desirous of any specific lot, we strongly recommend that you bid above its estimate. If you examine clauses 2 and 3 of the "Terms of Sale" on the inside front cover, you will see the advantage of this technique of bidding.

If you have a limited amount of money available to purchase items from this sale, you can perhaps calculate the expected percentage of successful bids by the following scale. On the average:

If your bid is less than 60% of the estimate, the odds of success are 1 in 15.

If your bid is 60% to 80% of the estimate, the odds of success are 2 in 5.

If your bid is 80% to 105% of the estimate, the odds of success are 9 in 10.

If your bid is 110% to 200% of the estimate, the odds of success are 98 in 100.

I hope that these estimates will allow you to compute the likely degree of success of each of your bids and thereby place more bids than you would if you expected to buy everything you bid on.

# Celebrating Our 10<sup>th</sup> Anniversary with AN AUCTION

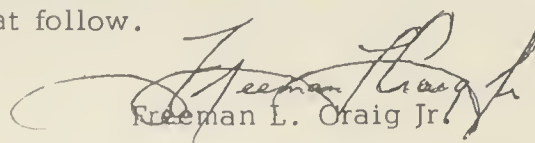

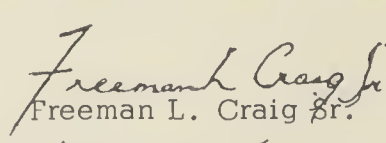

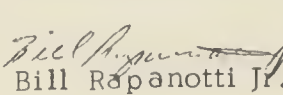

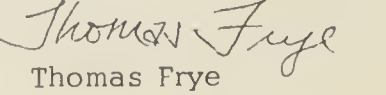

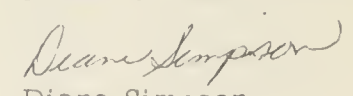

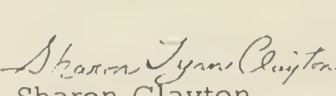

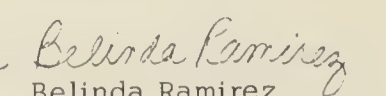

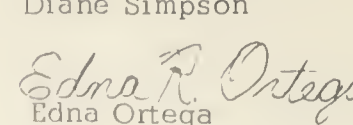

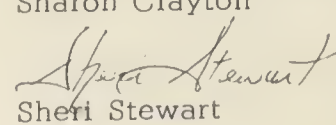

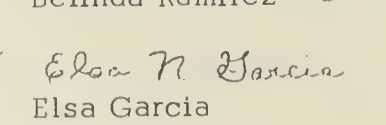

What does it mean to be in professional numismatics for a full decade? What will happen in this business in the years hence? Will foreign coin collecting boom as the population grows and leisure time expands? No one can definitively answer the above questions, but our experience dictates that the popularity of our hobby will continue to accelerate and will reach unprecedented proportions.

Regardless of what the future holds, we sincerely want to thank all of our customers for making the past ten years an exciting and profitable experience. As we celebrate our Tenth anniversary we are overwhelmed by memories of this past decade. Mr. Almanzar vividly remembers when he started his dealership immediately after returning from five years in England in 1961. As was natural, he began by mimeographing a small list which featured British and British World coins. By 1964 his business had expanded so drastically that he felt it necessary to open an office in downtown San Antonio with a professional staff. Therefore, in February of 1964 he commenced operations in a seventh floor office in the same historic building in which this business is still located. We are proud of the fact that two of those original employees, retired Colonel Freeman L. Craig Senior and his son Freeman L. Craig Junior, are still associated with our firm today.

At that time we introduced our monthly bulletin in a booklet format similar to what we still use. By 1966 we had become fascinated with the field of Latin American coinage and so we gradually shifted our speciality to that area of numismatics. As we studied the coins we noted the inadequacy of the references available on the various series. Thus began our endeavor to publish catalogues on the various Latin American coins and paper money

Today we honestly feel that our stock of Latin American coins is larger than that of any other dealer in the United States; we plan to further expand it in the years to come. A perusal of the pages which follow will exhibit a fabulous selection of these scarce coins. While some of the rarities are from the Medina collection (the subject of our August 31, 1970 and April 12, 1971 auctions), most are from other important consignments; we are pleased to be able to handle these items. With the exception of a few auctions containing collections like that of Gibbs, Brand or Farouk, it is seldom that this many rare items are offered simultaneously.

As Mr. Almanzar is overseas examining a nice Latin American collection, we of the staff of Almanzar's Coins of the World would like to take this opportunity to wish him a HAPPY TENTH ANNIVERSARY and to wish you, our customers, happy hunting in the auction lots that follow.

# EIGHT REALES AND PESOS OF THE NEW WORLD

Catalog reference numbers used in this section are from the 2nd Edition of Carlos Elizondo's book with this title. The first number after the auction lot is the number for that date and variety from his book; this is followed by an "E" number for Elizondo's type number; finally there follows the Craig ("C") number or Yeoman ("Y") number.

- 102 Elizondo Type-18, Y49  
1 Boliviano 1868FP with  
9 stars below coat of  
arms. Unlisted in Eli-  
zondo and unknown to  
modern numismatics.  
We can find no record  
of this date and assayer  
except for its listing in  
the 1929 catalogue of  
the Guttag collection  
(Guttag #412A). This  
specimen with 9 stars  
follows a full year after  
the transition from 9 to  
11 stars. It is impossible  
to evaluate a unique(?)  
coin-it could realize \$1000.

- 114 Elizondo Type-21, (Not in  
Yeoman) 1 Boliviano 1870ER  
Rare variety not listed in Eli-  
zondo. The last line of the  
reverse legend of #148 is:  
256MS 9DS FINO. On this  
specimen, there is no "MS"  
after "256" and no "S" after  
"D". Examination of a regu-  
lar #148 reveals that the "MS"  
and the "S" are both squeezed  
in, both being above a period

- 138 Y8-11 400th Anniversary of Discovery, 1900, set of 4: 400 Reis (Y8), 1000 Reis (Y9), 2000 Reis (#88 E12, Y10) and 4000 Reis "Cabral" (#89 E13, Y11). The last is a 'double crown' and is the largest silver coin of the Western Hemisphere (excluding recent 'controversial' non-circulating issues); it is the 16 rays variety and has a beautiful patina, perfect rims and shows absolutely no wear. The 3 smaller coins are also unc. and have similar toning that comes only with age. The set is perfect except for a few tiny edge dings on the small 400 Reis. In this state of preservation, this set represents a potential centerpiece for any Latin American or commemorative exhibit. Scarce set of 4, worth at least . 500.00

- 248 C/S#70 E3, (Not in Yeoman)  
on Guatemala Carrera Peso  
1869R. The coinage decree  
which authorized these  
counterstamps was intended  
to nationalize non-Guate-  
malan coinage and therefore  
the C/S over their own coin  
was an error. Prober stated  
(1957) that he had never  
heard of this coin. Elizondo  
calls it "Extremely Rare" and  
lists it without a price. This  
Very Fine specimen is worthy  
of a bid of . . \$2000-2500.00

# EIGHT REALES AND PESOS OF THE NEW WORLD

Lot    Description                      Estimate

## MEXICO (CONT)

- 300    Morelos counterstamp  
#MX168 E45 (not in Craig)  
Morelos-Chilpanzingo 8R  
1809TH C/S by the first  
constitutional convention  
called by Morelos in Sept.  
1813 in Chilpanzingo. This  
coin is extremely crude but  
nonetheless very rare. It is  
similar to Lot #589 of the  
Calico (Barcelona) sale of  
June 21-22, 1968. Very  
Good for this crude issue    . . 300.00

- 301    Morelos counterstamp  
#MX170 E46 (not in Craig)  
Morelos monogram C/S on  
Nueva Guatemala 8R 1810M  
of Ferdinand VII (#69 E7, C67).  
The coin is very rare even  
without the C/S, with the C/S  
it may be unique. Similar to  
Lot #555 of the Calico auction  
of May 5-6, 1967 (dated 1808).

Lot    Description                      Estimate

## MEXICO (CONT)

- 301    (Cont) This specimen is from  
the Medina collection and is  
of the highest degree of rarity.

# THE COINS OF THE BRITISH WORLD

The coinage of the British Commonwealth of Nations has finally established itself as one of the most sought-after and well-researched areas of the numismatic world. A great deal of the credit for this can be attributed to the monumental reference works written by Jerome Remick and Fred Pridmore. In fact, Remick's third edition of The Guidebook and Catalogue of British Commonwealth Coins is undoubtedly the standard catalogue used for attributing and evaluating the various coins from these countries.

In the past twelve months we have noticed a definite decrease in the availability of the rarer type coins of these countries. As thousands of collectors search diligently for one specimen of each type or date to complete their personal collections, it is obvious that the supply available must rapidly diminish. As a result, we are proud to be able to offer a significant number of the scarcer type coins in this series. In this section you will find the Australia 2 shillings 1910; British Guiana 4 pence 1888; British Honduras 1 cent 1911 and 1 cent 1913; British West Africa 1 pence 1911H 1 pence 1951, and 3 pence 1957; Cyprus 1/2 Piastre 1908; East Africa 1/2 cent 1909; Fiji 1/2d 1940 proof; Jersey 1/52 shilling 1841 and 1/48 shilling 1877H; Newfoundland 20 cents 1904H; South Africa 1/2d 1924 and 1925 and Strait Settlements 1/2 cent 1862. We anticipate record setting bids for several of these pieces.

## ENGLISH COUNTERSTAMPS ON LATIN AMERICAN DOLLARS---A SPECIAL CONSIGNMENT

On the following page we offer for your consideration five Latin American eight reales which were counterstamped by England or Scotland during the period 1797-1815 when there was a severe coin shortage in that area of the world.

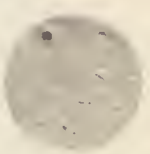

Collectors who desire to possess every type of money used in England must necessarily consider purchasing specimens of this type.

# THE COINS OF GREAT BRITAIN

<u>Lot</u>	<u>Description</u>	<u>Estimate</u>	<u>Lot</u>	<u>Description</u>	<u>Estimate</u>
					
1764	Counterstamp of George III over a Lima 1794IJ. This counterstamp was ordered by the Bank of England on March 9, 1797. These countermarked dollars were unpopular with the public and as a result the following jingle of the time was coined: "The bank to make its Spanish dollars pass, stamped the head of a fool on the neck of an ass". This popular piece is VF-XF, and similar to lot #582 of the Calico sale of June 1968 . . . . .	150.00	1766	Countermarked "Cromford Derbyshire" around "4/9" over Mexican 8 Reales 1802. Similar to lot #2286 of the Kriesberg-Schulman auction of April 6-8, 1967. Very Rare, Very Fine. .	400.00
					
1765	Larger octagonal countermark of the effigy of George III on the bust of Charles IV on a Potosi 8 Reales, 1800 PP. This issue was countermarked around 1800-02. This specimen from the Medina collection is in an extremely Fine state of preservation . . . . .	170.00	1767	Scotland. Mexican 8 reales 1796FM countermarked "Thistle Bank" and "4/9" in circle on obv. The reverse is countermarked with a thistle in a circle. Issued during the coin shortage in England of the late 18th century. Similar to lot #2288 of the same Kriesberg-Schulman auction. A choice specimen, VF-XF . . . . .	225.00
PRICES REALIZED FOR THIS AUCTION IS \$1. and will be sent <u>only</u> to those who order it. Order your copy without delay.			1768	Scotland. "J. A. Muir Greemock" and "4/6" in two concentric circles over a Mexican 8 Reales 1812 JJ. Similar to the above 2 lots, and similar to lot #590 of the Calico auction of June 21, 22, 1968. # PILLARS & PORTRAITS OF LATIN AMERICA

In this section are listed an unusually nice group of the minor silver coins, 1/4 Real through 4 Reales, of the Spanish American mints from the beginning of milled, die struck coins (about 1732) until complete independence from Mexico (about 1826). Collectors of this series are aware of the fact that the majority of the pieces in this series which are extant are holed as they were used for ornaments and jewelry by the native Indians. Specimens in fine or better are all very desirable.

Crown size pieces are listed in the section. "EIGHT REALES AND PESOS OF THE NEW WORLD."

"H" numbers used in this section are from the book, "Pillars & Portraits", 2nd Edition, by Robert P. Harris. This book is available from us for \$5.00 postpaid.

# COB COINAGE OF THE SPANISH COLONIAL MINTS

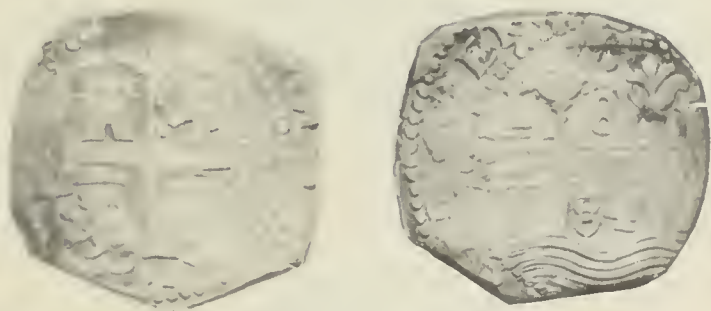

"COBS" ARE SILVER COINS, always crude and seldom round, issued by the Spanish Colonial mints in the New World. They were made by slicing off parts of crude silver bars, much as one would slice a banana. The name 'cob' comes from the Spanish, "Cabo de barra," meaning, "Cut from a bar." The slicing usually resulted in 'planchets' with highly irregular borders. The planchets were then struck with rough dies, often resulting in an ugly design sometimes incomplete even to the point of having no date or insufficient design for attribution to the mint of origin. Cobs that are round, or nearly so, and those with full dates, command a very high premium.

Cobs are being researched more and more and the results of this research published in book form, thus making it easier for collectors to understand and study the coins and enhancing their popularity. In this section, crown-size or 8 Reales coins are attributed to Calbeto, THE EIGHT REALES COMPENDIUM; 'Cal' numbers refer to this book. Quarter-size or two reales coins are attributed to Lorente, CATALOGO DE LOS REALES DE A DOS ESPAÑÓLES; 'Lor' numbers refer to this book. Other references used are Vicenti, CATÁLOGO GENERAL DE LA MONEDA ESPAÑOLA ('V' numbers) and Yriarte, CATALOGO DE LOS REALES DE A OCHO ESPAÑÓLES ('Yr' numbers).

------	------------------------------	--

# COB COINAGE OF THE SPANISH COLONIAL MINTS

## LIMA (CONT)

<u>Lot</u>	<u>Description</u>	<u>Estimate</u>
2526	(Cont) for this date is not listed in Vicenti or Lorente; obviously of the greatest rarity. Lorente states that cob coinage of Fernando VI is usually found mutilated and in poor condition. This specimen has been skillfully plugged below the date (the plug does not touch the date) and is otherwise VF-XF . 200.00	

## MEXICO

FELIPE III (1598-1621)

2527	Round 8 Reales cob, Assayer F, no date. This piece was struck between the ascension of Felipe III to the throne in late 1598 and the beginning of dated coinage in 1600. This specimen is similar to Calbeto's #615 and Yriarte's #482 but it differs significantly from both in that it has the Guatemala sun over mountains counter-stamp. Calbeto states: "During the entire cob period a special type of 8 Reales piece fully round and broad, was occasionally produced. "It is appropriately known as 'presentation' coin. On the rare occasions when such presentation

## MEXICO (CONT)

<u>Lot</u>	<u>Description</u>	<u>Estimate</u>
2527	(Cont) pieces have been offered at auction they have realized very high prices, disregarding the fact that it shows up almost always holed." This coin is of the highest degree of rarity, in fact it is rarer than the dated round cobs of Mexico under Felipe III. One of the most desirable of all Latin American coins and truly the opportunity of a lifetime for some fortunate collector. In light of some recent auction sale records of similar rarities we fully expect this specimen to fetch . . . . . \$5,000-7,000.00	

FELIPE IV (1621-1665)

2528	8 Reales cob of Philip IV salvaged from the Dutch ship, "The Gilt Dragon," which sank April 28, 1656, off the west coast of Australia, located in May, 1964. Assayer P but never had a visible date; remarkably well-preserved, call it Very Good to Fine . . . 90.00	
2529	8 Reales cob of Philip IV, this one salvaged by the Real Eight Co., Inc., from a Spanish Galleon sunk off Florida in July, 1715. No date or assayer visible. Comes with authentication papers. Good-Very Good 25.00

2832	Y-62 50 Centimes 1897 Rare Date, Extra Fine	35.00

We offer below a select group of the one franc coins of France from 1806 to 1962. This collection was accumulated by a very avid collector over a period of several years. Each specimen is the finest he could find during that period, and therefore the coins are particularly desirable because of their superior state of preservation.

The scarcer dates have been offered individually while the rest of the collection is offered in groups of several similar pieces. The coins are quite attractive as most have beautiful toning. The serious collector of French coins should take advantage of this rare opportunity.

## URUGUAY

ONE OF THE highlights of this auction is the unusual consignment of tokens of Uruguay listed below. In 10 years of specializing in Latin America, we cannot recall offering a single token of Uruguay, so we know they are scarce. Possibly never again will this many Uruguay tokens be offered at one time.

UNATTRIBUTED and MISCELLANEOUS

- 4333 10 different Latin American tokens, 4 copper-nickel (1 with scalloped edge), 2 brass and 4 copper, none looped, holed, bent or mutilated. Store, bakery, coffee plantation, etc., some with date, some with value. 18 to 28 mm, Very Good to Very Fine. 25.00
- 4334 10 Latin American tokens, some duplicates. 5 silver (one holed), 1 red plastic, 1 nickel (looped & bent), 1 brass and 2 copper (1 looped). Some with date (e.g. 1865), some with value (e.g. 1, 10¢, Cinco Centavos). 11-26mm . . . 15.00

Proclamation pieces and medals are miniature historical monuments and are truly right out of the pages of history. Medals and proclamation pieces of Latin America are among the most beautiful and interesting of all numismatic branches or subdivisions.

Nearly all of the countries of Central and South America have, at one time or another, issued round, coin-like pieces struck in the dearer metals, usually intended to commemorate and proclaim various important historical dates and events during their progress towards modern civilization. And they were invariably struck in very limited quantities.

Many of these pieces are extremely rare and if collector interest in proclamation pieces and medals was anything like what it is in coins of the same vintage, prices would be astronomically high and out of reach of the average person. We have noted, however, that the limited number of collectors of these artifacts and mementos of the past are usually quite avid and dedicated to their hobby. As we have stated before, the stage is now at a level similar to that of U.S. coins in 1920 and only infrequently is there an opportunity available for the numismatic fraternity to bid on a really large, important group such as this one.

All pieces listed in this section are round and have a plain edge, unless otherwise stated. Diameters are given to the nearest millimeter (mm); 1 inch is approximately 25.4 millimeters. All photographs are of the actual pieces being offered and are the actual size of the pieces.

BOLIVIA

In the catalog of Vol. 2 of the Virgil Brand auction, Hans M. F. Schulman editorializes that the 8, 4, 2 and 1 Commemorative Soles of Bolivia are coins, not medals, and they are all very rare. None of the catalogs have paid any attention to these series, believing them to be medallic. Fonrobert in 1878 in Berlin describes all these pieces as coins and states that they were used as such. Soon these pieces will follow the other coins and bring their proper value, particularly when a catalogue listing these is published.

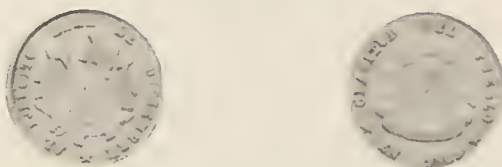

4441	OPTIMO PRINC PU?LICE FIDELIT JURAT around a mountain surmounted by a crowned, double eagle, pillars at either side. Rev: POTOSI/PRO/FERDINANDO VII/ANNO(?)/ 1808 in 5 lines. 39 mm, silver, VG-F, plugged, flowered edge	20.00

# PAPER MONEY OF LATIN AMERICA

All pre-WW II issues of Latin American paper money are scarce with but few exceptions. Foreign paper money collecting, especially Latin American, is now in its infancy and the scarcities of today are the rarities of tomorrow! Now is the time to get in on the ground floor. This section of our third auction is not large, so it would appear that most of our consignors do not wish to part with their paper money collections or duplicates. This fact always foretells a rapid price rise in the near future. Need we say more about this? Sizes of the notes in this section are given to the nearest millimeter (mm). 25.4mm is 1 inch. "Sten" numbers used in this section refer to BANKNOTES OF THE WORLD by George J. Sten.

## SPECIAL SECTION

As mentioned in the introduction to this sale, Mr. Almanzar has been overseas on a buying trip. He returned with a number of nice items; from the group we have selected a few Latin American issues for your consideration.

6000 Guat. Elizondo Type 17, Number 130, Yeoman 58a 1 Peso 1893G. Of the greatest degree of rarity. Carlos Elizondo Junior lists this date as "very rare" and indicates that the fabulous Elizondo collection does not house a specimen of this date. We reviewed numerous collection lists and want lists in order to ascertain the true degree of rarity of this date. Apparently only one or two other pieces of this date are known. Furthermore this piece has the assayer initial "G" unlike the listing in the catalogues which is for the "RG" assayer; it is therefore unlisted and could possibly be unique. The reverse of the coin which shows the date and assayer is in fine condition while the obverse indicates that the elements were not kind to the coin . . . \$800-\$1500

6001 Guatemala 4 Reales 1893RG. Another fabulous rarity. The 1892 star 4 Reales which we listed in our June 10, 1971 bulletin at \$675 brought four orders. This piece is much rarer than the 1892 issue; in fact we were able to trace only one other specimen. Robert Harris found this coin to be so rare that he thought it might be a pattern; the design of this piece is identical to that of a regular issue and its degree of wear indicates that it indeed circulated as a regular coin. Considering the tremendous interest in Guatemalan date collecting coupled with the fact that nearly every collector needs this piece, we fully expect this great rarity to realize . . . . \$1750-\$3000

6003 Banco de Panama 5 Pesos, August 18, 1892, 3 obverse signatures, one reverse signature, 116 X 195 millimeters. Printed by American Bank Note Co., New York One of the few outstanding bills of the Bank of Panama authorized by Law 26, December 30, 1875. Bills of the Department of Panama under Colombia are excessively rare, in our opinion. We would not be surprised if this bill brought a four-figure bid as we note that the 'Porto' Rico note brought \$8,750. Not only is this note extremely rare, it is in extremely fine condition. . . . . ?
